

# 23P Flex Pins

by

## Hensley Industries, Inc.

Use these descriptions to help you choose the right pin.\*

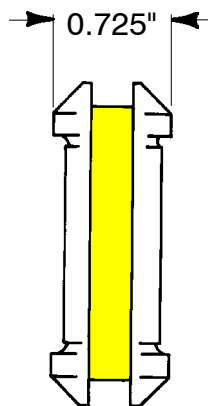

### 23PA (Standard)

This will **replace** your existing P23 pin for **new installations**.

Rubber is color-coded **BLACK**.

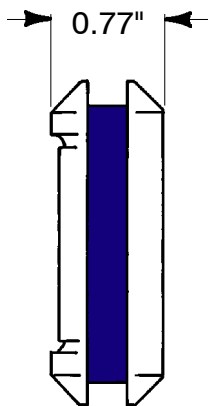

### 23PB (Reversible)

A **reversible** pin for **new installations**.

Rubber is color-coded **YELLOW**.

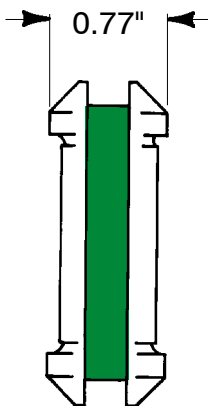

### 23PC (Oversize)

An **oversize** pin with **more rubber** to provide tighter fastening on **loose or worn adapters**.

Rubber is color-coded **BLUE**.

### 23PD (Reversible, Oversize)

A **reversible** pin, similar to 23PB, but with **more rubber** to provide tighter fastening on **loose or worn adapters**.

Rubber is color-coded **GREEN**.

\*Illustrations are not shown actual size.

### Features:

- Increased positive locking, creating a better fit.
- Stronger forgings to provide increased strength.
- Tapered ends for easier installation.
- Color-coded rubber for easy identification.
