

SUCCESS STORY

CAT 980H - XS40 Extends Tooth Life

Application: Gold Mining
 Machine: CAT 980H
 Lip: Spade Nose
 Solution: XS40

HENSLEY PRODUCT OFFERING

- 1200XS40 Adapters
- XS40ABR Teeth

RESULTS

- Extended Tooth Life
- Reliable Quality
- Improved Production Efficiency
- Increased Tooth Mass

Customer Upgrades CAT Loaders to Hensley GET Systems

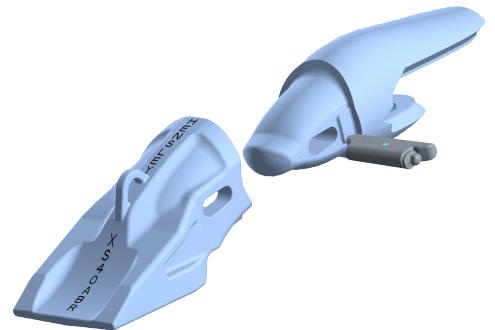

A gold mining operation in Australia recently upgraded one of their CAT loaders to a Hensley XS40 GET system.

First, they worked closely with their Hensley Regional Sales manager to analyze their operations and monitor GET consumption. Then an appropriate Hensley system was selected to both maximize production and minimize costs. Though the individual component prices commanded a premium, the customer was quickly paid back. The XS40 system not only increased the production efficiency of the CAT 980H but also provided a longer wear life.

Average tooth cycles increased from 350 hours to over 900!

This same customer is now in the process of upgrading additional CAT 980 and 988 loaders to Hensley systems.
