

# SUCCESS STORY

## CAT 992 - KMAX 85 Conversion

Application: Mining  
 Machine: 992  
 Lip: Semi-Spade  
 Solution: KMAX 85

### HENSLEY PRODUCT OFFERING

- K130085 Adapters
- K85RP3 Teeth

### RESULTS

- Durable Product
- Reliable Quality
- Extended Tooth Life
- Less Down Time

## Customer Upgrades CAT Loaders to Hensley GET Systems

A mining contractor in Chile who operates a fleet of CAT loaders recently upgraded their GET systems to Hensley KMAX85. Before Hensley wear parts were installed, the contractor was utilizing a secondary source of product from an overseas supplier.

Although the cost of these parts were enticing the contractor quickly learned the all too familiar lesson that you get what you pay for. After upgrading their wear components to Hensley products, they have increased their machine availability and significantly decreased the amount of breakage and down time.

This same customer is now in the process of converting an additional 992, 972, 980, and 966 all to Hensley products. No matter what your make or machine model, Hensley has a durable wear system that will exceed your expectations.

## KMAX 85
