HENSLEY ANNOUNCES THE RELEASE OF

WA500 YARD LOADER CAST HALF ARROW BLADES

Hensley's WA500 Yard Loader cast half arrow blades are engineered to last longer while working in heavy construction and mining applications. Designed to increase penetration and base edge protection, Hensley's cast half arrow blades help to load faster and easier.

SAFETY

Having shorter half arrows for lower weights and built-in cast lifting eyes, Hensley's cast half arrow blades are made to keep the users safety in mind.

- ▷ Cast Lift Eyes
- ▷ Light Weight

RELIABILITY

Hensley's cast half arrow blades are made using some of the strongest alloy in the market. With Hensley's 3E metal alloy the cast half arrow blades are made to stand up against high abrasion and impact.

- ▷ Through Hardened 3E Alloy
- ▷ High Impact Resistance
- ▷ High Abrasion Resistance

PRODUCTIVITY

Using Hensley's cast half arrow blades increases penetration and reduces bucket fill time. With an improved cutting angle, Hensley's cast half arrow blades will reduce the wear on the machine and tires.

- ▷ Improved Angle of Penetration
- ▷ Base Edge Protection
- ▷ Reduced Machine Wear and tear

APPLICATIONS

- ▷ QUARRY
- ▷ SAND
- ▷ GRAVEL

MACHINE TYPE

- ▷ WA500 YL
