

BLADESAVER® QM SYSTEM

EXTREME INNOVATION

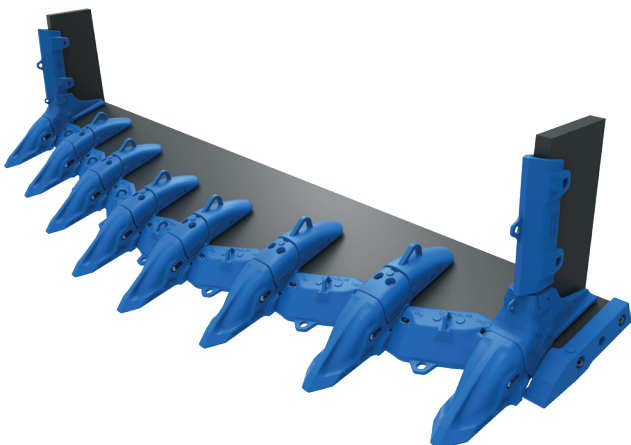

SAFE AND EASY TO INSTALL IN THE FIELD

The Bladesaver® QM loader lip system engineered by Hensley is a 3rd Generation product taking the best of the Bladesaver® and BSII adding safety and easy usability to create a dominating lip system for the quarry market.

BLADESAVER QM LIP SYSTEM THE QUARRY

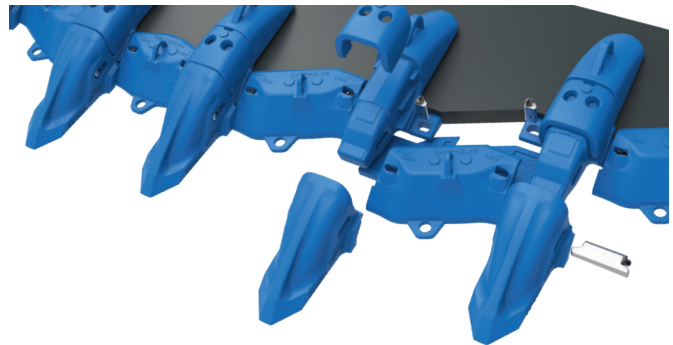

The BSQM system is the next step in quarry lip systems safe, durable, and easy to use.

- ▶ Fully integrated lip system
- ▶ 100% lip protection for reduced wear on base lip
- ▶ Fully mechanical wear components
- ▶ Streamline profile for easier penetration and loading
- ▶ Available in 2.0", 2.5" and 3.0" lip thicknesses. Suitable for loaders with breakout forces ranging from 50,000 lbs and greater.

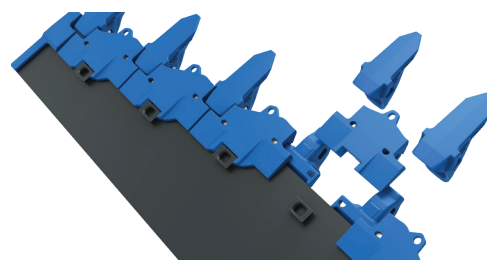

SAFETY INTEGRATED EASY TO USE

The BSQM's hammerless system means easy, safe, and quick changes in the field reducing down time and adding back to the bottom line.

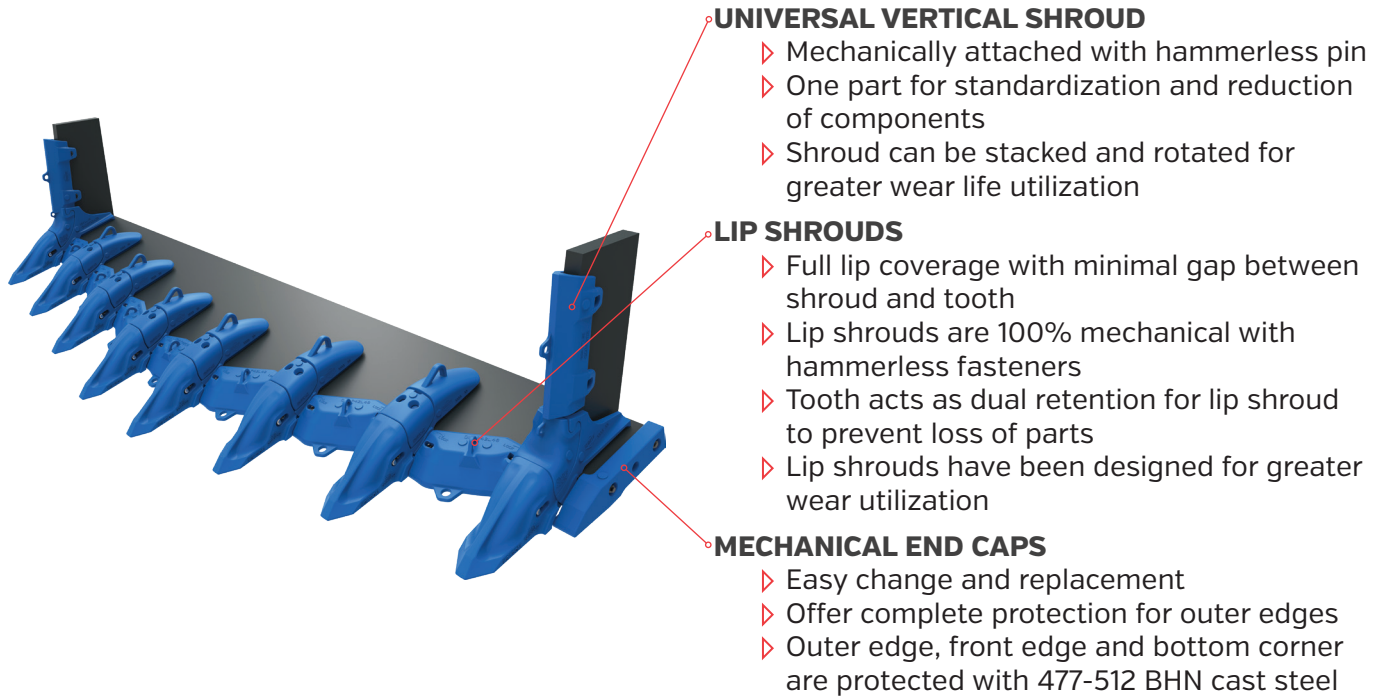

SMOOTH BOTTOM CLEAN WORK FLOOR

The BSQM smooth/flat bottom design improves cycle times, penetration, and maximizes the flow of material to making each pass count.

WEAR PROTECTION FOR EVERY APPLICATION

The BSQM system is specially designed to help withstand extreme impacts and high abrasion. The high quality castings and unique design minimize downtime, increases productivity, and reduce cost. Hensley's BSQM tooth system is a safe and reliable wear solution.

NEW TOOTH DESIGN BETTER PENETRATION

The XS QM tooth system is specially designed to help withstand extreme impacts and high abrasion.

- ▶ Square pocket and nose for greater strength
- ▶ Hammerless pin for safe, quick and easy change out
- ▶ Due to quick tooth change out, teeth can be rotated easily for even wear across the lip positions resulting in higher wear utilization

Since 1947, Hensley Industries, Inc. has dedicated itself to providing superior products and service across the globe. Hensley's continuous commitment to safety, quality, reliability and our customers enables us to help those in the field every day.
