

CONSTRUCTION BUCKETS

EXTREME STRENGTH

HIGH PERFORMANCE, HIGH PRODUCTIVITY

Hensley buckets are designed for maximum production, built to take on any job. Continuous commitment to quality and service allows Hensley to be an important partner of the construction and quarry market.

BACKHOE BUCKETS

12 - 60 TON CLASS

Hensley buckets are designed to offer improved productivity, greater strength and longer life. Equipped standard with the field proven Kmax system and multiple wear protection options.

- ▷ Various capacities available to meet your production needs
- ▷ Cast corner heel shrouds and wear runners available to help protect against severe abrasion
- ▷ Optional chromium carbide plate, K VX wear strips, or 400 & 500 BHN wear plate
- ▷ Specialized wear packages are available upon request

WHEEL LOADER

30 - 50 TON CLASS

Hensley buckets are designed for use in various applications.

- ▷ Equipped with Hensley GET systems and wear products
- ▷ Mechanically attached j-bolt lip shrouds
- ▷ Bolt on cast half arrow segments with cast top covers
- ▷ Inside/Outside liner wear plates - AR400, AR500, K VX, & Chromium Carbide
- ▷ Rock deflectors
- ▷ Specialized wear packages available to meet job requirements

EXTREME PERFORMANCE

MAXIMIZE YOUR PRODUCTION

Hensley's attachments are built to perform. Hensley buckets provide quick cycle times and great material handling maximizing both production and performance.

TL - TRENCHING AND LOADING BUCKET FOR GENERAL PURPOSE USE

EXTREME DURABILITY
BUILT TO STAND UP TO THE APPLICATION

Hensley provides attachments capable to withstand the job. Hensley offers a variety of buckets to cover most applications. Custom options are also available to insure you have the best bucket for the application.

HP - HEAVY DUTY BUCKET
EVERYDAY DIGGING BUCKET

EXTREME RELIABILITY

THE BRAND YOU KNOW, THE ATTACHMENT YOU TRUST

Hensley buckets are among the most reliable in the industry. Hensley's commitment to quality helps drive our success and fortify Hensley as a brand you can trust.

HPS - SEVERE DUTY BUCKET

WHEN HEAVY DUTY WON'T CUT IT

EXTREME INNOVATION

THE FLEXIBILITY TO CREATE. THE EXPERIENCE TO GET IT DONE.

Hensley has been providing attachments for 70 years for all types of applications. Hensley is committed to push the attachments industry to the next level with safety, reliability, & productivity in mind.

HPX - EXTREME DUTY BUCKET

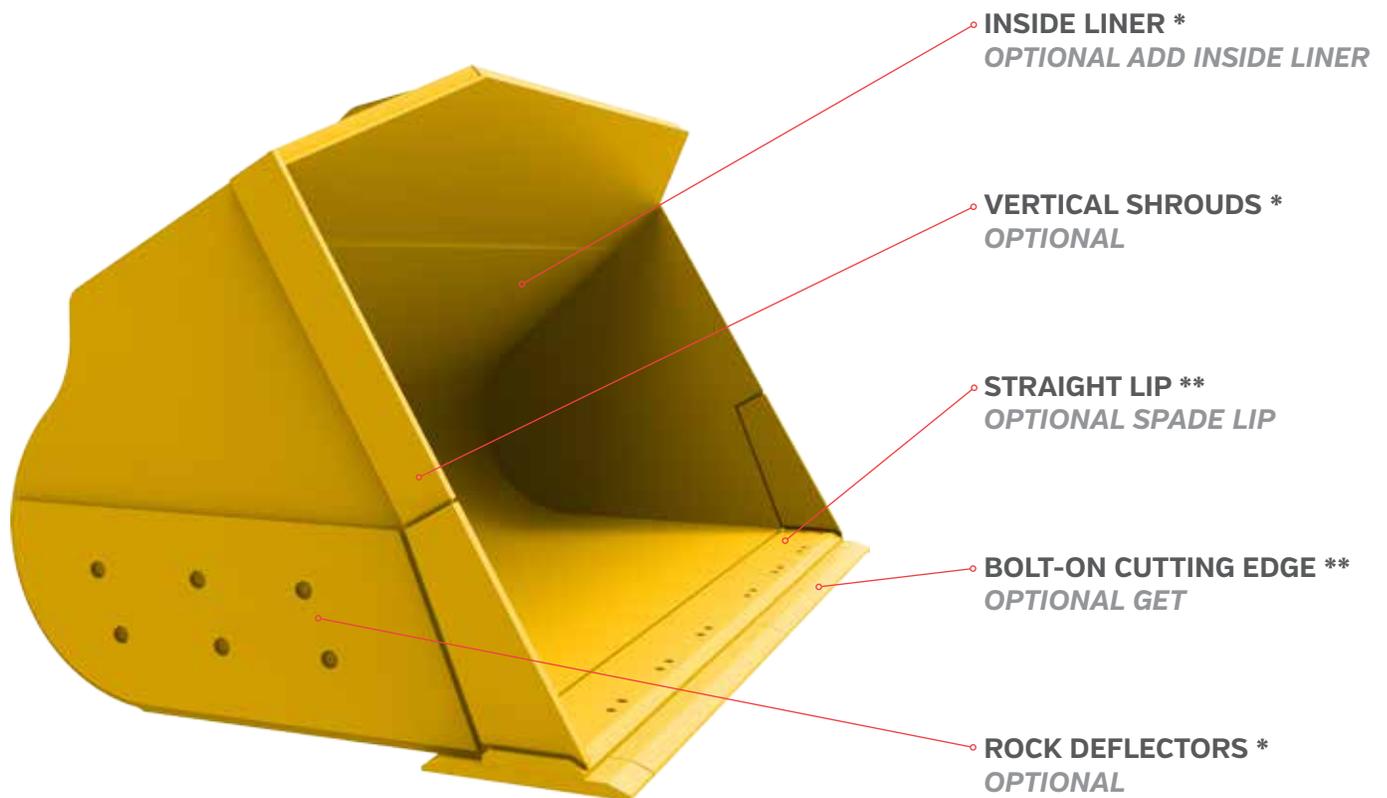

WHEN THE APPLICATION BITES BACK

EXTREME STRENGTH HIGH PERFORMANCE, HIGH PRODUCTIVITY

Hensley Loader buckets are designed for the application. Hensley offers various styles GP, HD, to Rock and more. Hensley has the product to fit your needs.

EXTREME INNOVATION

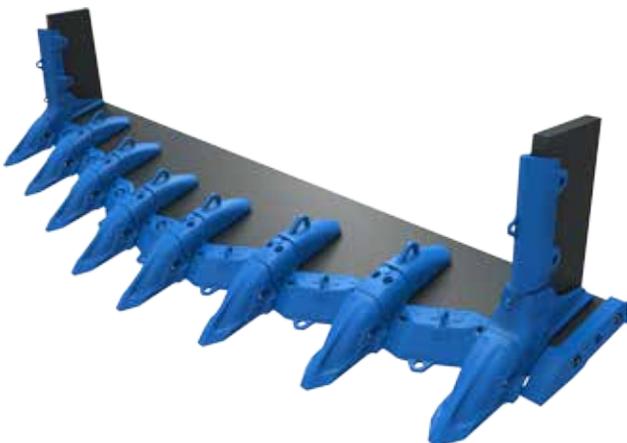

SAFE AND EASY TO INSTALL IN THE FIELD

The Bladesaver QM™ loader lip system engineered by Hensley is a 3rd Generation product taking the best of the Bladesaver and BSII adding safety and easy usability to create a dominating lip system for the quarry market.

BLADESAVER QM LIP SYSTEM THE QUARRY

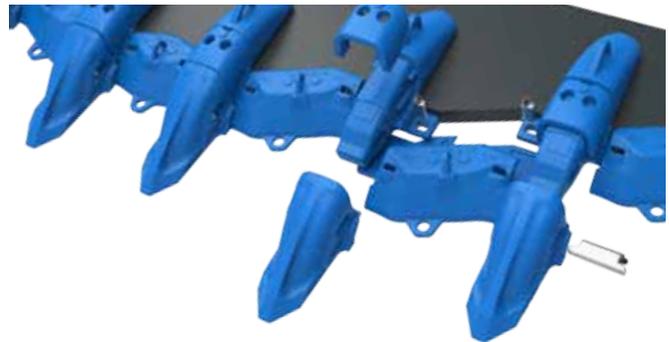

The BSQM system is the next step in quarry lip systems safe, durable, and easy to use.

- ▷ Fully integrated lip system
- ▷ 100% lip protection for reduced wear on base lip
- ▷ Fully mechanical wear components
- ▷ Streamline profile for easier penetration and loading
- ▷ Soon to be available in 2.5", 3.0", 3.5" and 4.0" lip thickness. Suitable for loaders with breakout forces ranging from 50,000 lbs and greater.

SAFETY INTEGRATED EASY TO USE

The BSQM's hammerless system means easy, safe, and quick changes in the field reducing down time and adding back to the bottom line.

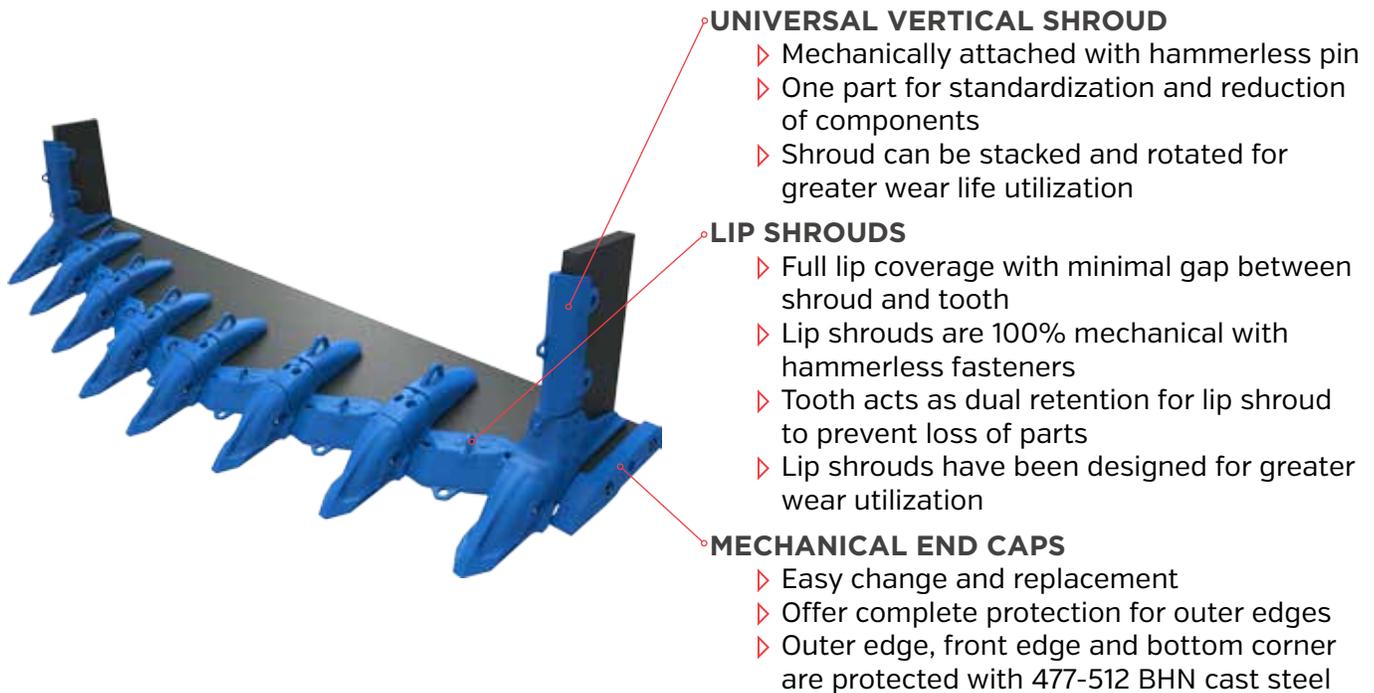

SMOOTH BOTTOM CLEAN WORK FLOOR

The BSQM smooth/flat bottom design improves cycle times, penetration, and maximizes the flow of material to making each pass count.

WEAR PROTECTION FOR EVERY APPLICATION

The BSQM system is specially designed to help withstand extreme impacts and high abrasion. The high quality castings and unique design minimize downtime, increases productivity, and reduce cost. Hensley's BSQM tooth system is a safe and reliable wear solution.

UNIVERSAL VERTICAL SHROUD

- ▷ Mechanically attached with hammerless pin
- ▷ One part for standardization and reduction of components
- ▷ Shroud can be stacked and rotated for greater wear life utilization

LIP SHROUDS

- ▷ Full lip coverage with minimal gap between shroud and tooth
- ▷ Lip shrouds are 100% mechanical with hammerless fasteners
- ▷ Tooth acts as dual retention for lip shroud to prevent loss of parts
- ▷ Lip shrouds have been designed for greater wear utilization

MECHANICAL END CAPS

- ▷ Easy change and replacement
- ▷ Offer complete protection for outer edges
- ▷ Outer edge, front edge and bottom corner are protected with 477-512 BHN cast steel

NEW TOOTH DESIGN BETTER PENETRATION

The XS QM tooth system is specially designed to help withstand extreme impacts and high abrasion.

- ▷ Square pocket and nose for greater strength
- ▷ Hammerless pin for safe, quick and easy change out
- ▷ Due to quick tooth change out, teeth can be rotated easily for even wear across the lip positions resulting in higher wear utilization

Since 1947, Hensley Industries, Inc. has dedicated itself to providing superior products and service across the globe. Hensley's continuous commitment to safety, quality, reliability and our customers enables us to help those in the field every day.
